

Puristically designed is the Sidewinder 31 a classic front loader with a slim design, adapted to the human body, ideal for private use e.g. on ski tours as well as for air- or mountain- rescue.

- Main compartement with adaptable modular system.
- Safety compartement for alpine safety equipement such as avalanche shovel, probe and biwisac, as well as private equipement
- Small front pocket with splash-proof Zipper for small parts.
- Anatomically cut shoulder straps with chest strap and integrated emergency whistle
- Lightly padded hip belt for medium loads. Material loops are attached to the left and right. The hip belt can be easily removed without tools or exchanged for another model.
- **IKS** Individual labeling system
- Robust handle, robust enough to attach the backpack on a winch or rope.
- Reflectors for better visibility.
- Compartement integrated in the bottom for an optionally available stowable bag for a helmet or defibrillator and an again optionally available rain cover.
- simple, solid fixation for an ice axe.
- Possibility to attach skis.
