

The DOCSNAKE 28 TCX is very flexible to use. As a first aid backpack in accordance with DIN 14142 K for the fire department but also as a first aid backpack for private use. The TCX model is particularly easy to clean.

- Main case with a modular system that can be adapted to any requirement. All inside pockets can be **fixed, removed, interchanged** or **expanded** and **freely placed** with our magnet system.
- Plain and disinfection-friendly back.
- Anatomically cut shoulder straps, plain and disinfection-friendly.
- Removable, padded hip belt with a small zip pocket and a loop
- **IKS** Individual labeling system.
- 2 robust handles, robust enough to attach the backpack on a winch or rope. Again plain and disinfection-friendly.
- Reflectors on all sides for better visibility.
- Inner lining made of Rocktarp, plain and disinfection-friendly. The fixation without Velcro means less pollution.
- Metal parts processed in a concealed manner.
- Magnet holding system paired with permanent magnets and soft magnetic material, alternatively with two or more permanent magnets.
- Magnets with different holding force can be used.
